Описание: The students sit two mid-term written exams in October and in March, first semester written exam in December, and University of London International programme exam (or HSE final exam) in May. October and December exams include multiple choice and free response parts. March and May exams are free response (open questions) exams.
Критерии оценивания:
In case of the student’s absence from a midterm test for a valid reason, the calculation of the total grade is based on other types of assessment, using a formula that partially compensates for the lost points. In this case, the weights of all other components of the final grade are multiplied by (1+0,5a), where “a” is the weight of a grade for the missed midterm test in the total grade.
